

Mentor-Hub

- The platform aims to connect aspiring start-up founders with experienced mentors who have a proven track record of success in the start-up world.
- It provides valuable advice, guidance, and resources to founders at all stages of their entrepreneurial journey.

Entities:

1. Start-up Founders (Users): Individuals or teams looking for guidance and mentorship for their start-up ventures.
2. Experienced Mentors: Experienced professionals, including CEOs, co-founders, industry experts, and professors, willing to provide mentorship and share their expertise.

Scope:

The scope of the Mentorship Platform extends without any geographical or educational limitations.

The Mentorship Platform's scope is designed to facilitate mentorship connections, knowledge sharing, and collaboration between experienced mentors and start-up founders at all stages of their entrepreneurial journey.

Features:

1. Mentor profile :
Create comprehensive profiles for mentors, including their bio, field, industries/experience, expertise/skills, roles, and goals. This helps founders understand the mentor's background and expertise.
2. User profile :
Enable start-up founders to create profiles detailing their objectives, goals, skills, and expertise. This helps mentors understand the specific needs of each founder.
3. Discover Mentor :
This component allows users to discover mentors based on their needs and preferences. It implements a search and filtering system that enables users to search by subject (e.g., Media, Coaches, Tech, and Digital Marketing), name, or other criteria.
4. User Dashboard and Notifications:
Provide founders with a personalized dashboard where they can track their interactions with mentors, access resources, and receive notifications about new mentorship opportunities.

5. Mentor Dashboard and Notifications:

Provide founders with a personalized dashboard where they can track their interactions with user, access resources, and receive notifications about new opportunities.

6. Mentor column :

User can read the advices of multiple mentors on a certain start-up topics and get help from it.

7. Feedback and reporting:

Allow founders to provide feedback on the quality of mentorship and the impact on their entrepreneurial journey. Use this feedback to continuously improve the platform.

All mentors' favourite and exciting reviews section

8. Payment for mentor services :

This component facilitates payments for mentor services. It may use a third-party payment processor or develop its own payment processing system.

Allow mentors to offer their services for a fee. Founders can access world-class mentor resources, including video lectures and research documents, for a fee. Mentors can start charging only after receiving positive reviews from at least three founders.

9. Real time communication :

Provide a real-time messaging and communication system that allows founders to seek business advice and guidance from mentors.

10. Mentor's Resources:

This component manages the storage and delivery of mentorship resources, such as documents, and notes. It allows users to access and utilize these resources for learning and guidance.

11. Availability Calendar (Web scraping) :

This can be used to keep track of mentors' availability, events, or speaking engagements by scraping event websites like Google calendar. Streamlining mentor-mentee matching and enhancing overall efficiency.

12. Recommendation of Founder-Mentor Matchmaking (Machine Learning)

Implement an algorithm that suggests suitable mentors to founders based on their goals, skills, and expertise. This enhances the matchmaking process and helps founders find the right mentor.

13. City Squads :

Enable founders to connect with peers who are geographically close or working on similar goals. This feature promotes local networking and collaboration.

14. Interactive Forums and Discussions:

Enable founders and mentors to engage in vibrant discussions, share ideas, seek guidance, and collaboratively solve challenges.

15. Mentor Reviews (Web scraping) :

Where Founders can leave reviews and ratings for their Mentors. This feature will help New Founders to find best Mentor and help to make informed decisions from ratings and reviews of specific Mentors given by previous Founders.

16. All mentor's favourite and exciting reviews section:

Create a section where founders can leave reviews and ratings for mentors. Showcase mentor reviews to help founders make informed decisions.
